B1.1.2 General Guidelines		
<ul style="list-style-type: none"> Acknowledge the character of surrounding single-family residential, multi-family and mixed use areas at each edge. 	X	
B1.1.3 Street Frontage Edge		
B1.1.3.1 Public Entrances and Access Points		
<ul style="list-style-type: none"> Create a hierarchy of public entrances and access points to emphasize their appearance at Street Frontage Edge locations, and diminish them at Garden Edge locations where visible from single family residences. 	X	
B1.1.5 Garden Edge		
<ul style="list-style-type: none"> The objective of the Garden Edge is to screen hospital structures and light that emanates from vehicles, buildings and site fixtures, while providing an aesthetically pleasing and diversely vegetated viewscape and safe walking environment for pedestrians. 	X	
B2.0 Architectural Character		
B2.1 Height, Bulk and Scale		
<ul style="list-style-type: none"> Design buildings with materials that help visually reduce the scale and form of the buildings into smaller scaled elements and that complement neighboring structures within the same visual field. 	X	
B2.4 Finish Materials		
<ul style="list-style-type: none"> Design and build new buildings with high-quality, attractive, durable materials aesthetically appropriate to the hospital and the neighborhood. 	X
